

Post-doctoral fellowship in Inria Grenoble – Rhône-Alpes

Dynamics for Games and Optimization

Location	Inria Grenoble – Rhône-Alpes, Grenoble, France
Host Scientists	MESCAL team (B. Gaujal)
Period	12 months
Starting date	Flexible
Stipend	€ ???

Area of Research

Game theory, dynamical systems and optimization, with emphasis on potential applications to networks. The candidate should have a strong mathematical background and research experience in at least two of the target research areas.

Application Material

1. Curriculum Vitae (incl. list of publications)
2. Research statement describing previous and intended research activities (max. 3 pages)
3. 2 or 3 recommendation letters to be sent directly to Bruno Gaujal, director of the MESCAL team, at bruno.gaujal@inria.fr

Application material should be received no later than Month DD, 201X.
